COVID-19 SLIDE DECK.

This document contains a series of PDF slides for open-access use by anyone wanting to present on COVID-19 surveillance trends in the Caribbean. We start with regional overviews, and follow these overviews with country-by-country updates. 20 Caribbean countries and territories are included. The data presented are correct as of 30 Aug 2020.

All slides created by Ian Hambleton, Professor of Biostatistics, George Alleyne Chronic Disease Research Centre. Email ian.hambleton@cavehill.uwi.edu with any questions related to these slides. All graphics are drawn from our COVID-19 briefings, updated daily and available at: www.uwi.edu/covid19/surveillance
### Summary for 14 CARICOM countries
